

Bannatyne Leisure 2008

NIFL Installs Altrocast Plus Quartz...

NIFL successfully installed 430m² of Altrocast plus Quartz manufactured by Altro Resins to Bannatyne Leisure, Leicester.

The major factor with this installation was time. The Club has over 2,000 members who regularly use the Pool and Changing Areas.

The originally anticipated schedule was a 2 week shutdown. However, time saving measures were produced in the form of: Rapid Curing Primers, Rapid Curing Sealer Coats, Overnight Working, High Labour Input and Precise Organisation, shortening the programme by 10 days.

NIFL Resin Flooring

Epoxy, Polyurethane and MMA Resin Flooring
Resin Bound and Resin Bonded Surfacing

The product consists of a trowel applied fine quartz aggregate sealed using clear sealer coats.

Where added slip resistance is required, a quartz scatter is added to the second sealer and finished with the third in order to give an SRV rating of slip resistant when wet. The installation has made a dramatic difference the appearance of the Club, highlighted by the numerous reported comments from members.

Manufacturer: Altro Resins

Products: Altrocast TB Screed plus Quartz

Size: 430m²

Completion Time: 4 Days and 4 Nights
