NIFL Resin Flooring Installs a UK First to the King's Road Finest Nightclub...

NIFL Resin Flooring successfully installed 70m² of Flowfast Kristalina Gold to Embargo, Chelsea, the first ever installation of Flowfast Kristalina Gold in the UK.

Flowfast Kristalina is a decorative smooth sparkling acrylic resin floor finish, ideal for a modern contemporary environment. Flowfast Kristalina has been developed to enable very fast track applications, reducing programme time on this project to just one morning.

The Gold Room installation was the first ever UK application of Flowcrete's new 'Flowfast Kristalina Gold' fast track decorative flooring system.

The Client and Project Manager were looking for a completely unique contemporary floor finish to match the opulent surroundings of the nightclub. Everyone agreed on completion that Kristalina Gold match the surroundings perfectly, along with a seamless external resin bound system to the smoking terrace as shown below.

NIFL RESIN FLOORING

NIFL Resin Flooring successfully installed 85m² of Ronacrete Ronadeck Resin Bound Aggregate to the Smoking Terrace of Embargo 59, Chelsea.

Ronadeck is a resin bound aggregate surface dressing designed to be functional and highly attractive. Supplied in a range of unique aggregate blends, the Ronadeck system is trowel applied in situ to provide a smooth seamless finish.

This installation at Embargo 59 demonstrates the growing popularity of resin bound external systems. Typically used on footpaths and driveways, resin bound systems can now be seen around water features, swimming pools, car parks, college and university communal areas, reception areas and offices, all at a typical thickness of 15mm.

The Client was extremely happy with the end result and has requested NIFL complete more work to further nightclubs and offices.

NIFL installs Epoxy, Polyurethane and MMA Resin Flooring Systems to Industrial, Commercial and Residential Flooring Systems throughout the UK.
